

**Q:** *With Sears going into bankruptcy and you having a shop inside Sears, how does that affect your business? Also, I understand the Royal Canadian Mint is closing down. Can I get my Mint product from you?*

**A:** Our Sears store at Metrotown is now closed. I am now working at the Richmond store Monday through Saturday. As soon as the liquidators were appointed, we moved all our store from there to our Richmond store location. At this moment Richmond is the only store we are running. As you can understand, we are very well stocked with duplicate inventory.

We decided to run a large sale on Royal Canadian Mint product from now until Christmas. All RCM product from 2015 and older is now on sale for 25% off the lowest sale price we had it marked at. This is well below our cost, let alone Mint issue price. These prices are so low that I have Ebay sellers buying from us, to resell on Ebay.

For people who want 2017 Mint product, we have a small sale at below the mint issue price on two items. The 2017 150th Anniversary of Canada silver dollar, issue price \$59.95, sale price \$55.95. The 2017 150th Anniversary of Canada silver proof set, issue price \$234.95, sale price \$219.95.

Note: Early November we will be having a major announcement that will be posted in our store and on our website. Stay tuned.

Jim
