## QUESTION:

**I received in the mail a flyer from a company coming to buy coins and gold.**

**How do their prices compare to yours.**

## ANSWER:

This company comes into town from back east a few times a year. I had a mother and daughter come in who had an offer from them. I offered \$2150 for the gold jewellery they had. This company had offered them \$500.00.

Another gentleman took silver dollars to them and then came to us. We paid him 300% more than they offered.

A third lady sold gold coins to them and then sent her to us with some remaining coins.

The remaining coins had no value. When she asked what we would have paid for the gold coins, she was shocked to find our offer was 25% higher.

My firm belief is that you could take your coins or gold to any reputable in the country and get more than these people offer.

I believe that we could serve you better and offer more than they could ever hope to.
